### ALLOWANCE

1. Applicant's arguments, see Appeal Brief, filed July 22, 2003, with respect to the rejection of the claims based upon the combination of Koon '548 and Koon '707, as set forth in previous office actions, have been fully considered and are persuasive. Specifically, applicant traverses the rejection by asserting that the combination of references does not teach how to add the encapsulant such that the claimed thickness of encapsulant with respect to the fiber length is necessarily present. (See Brief, page 11.) Applicant is correct in noting the examiner's assumption of a "maximum" amount of encapsulant is erroneous. In particular, the examiner assumed the maximum amount of encapsulant would be the amount required to have an equal height of free fiber tips and encapsulant. This is erroneous in that encapsulant could be added in an amount which would exceed the height of the free fiber tips. Accordingly, the rejections of claims 32-55 over said references is hereby withdrawn.

2. An updated search of the prior art has produced no new art of record. Therefore, claims 32-55 are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
